THE FISHERIES.

Casadias Cruisers acces active Than Formerly.

The captain of a Hailfax fishing vessel which has just returned from a five weeks' trip to North bay asserted emphatically yesterday that the dominion cruisers were not only neglecting to make seizures, but were actually keeping out of the way of American tishermen. He said: I was in North bay for nearly four weeks without seeing a single Dominion cutter and then the Conrad turned up. Three weeks ago Sanday I was off Tracadie, N. B. There weeks ago Sanday I was off Tracadie, N. B. There weeks ago Sanday I was off Tracadie, N. B. There weeks ago Sanday I was off Tracadie, N. B. There was a without seeing as many fish as they could close in abore. By vessel it think was the only one from Nova Nova in the lot. I never saw a cutter on hand while the American wessels were fishmost the commanders of the cutters have the places most frequented by the heavy of the places most frequented by the treepassers. I called at Tignish, and while there saw a American schooner buying barrels without the sligitest difficulty, and the Tignish without the sligitest difficulty, and the Tignish without the sligitest difficulty and the Tignish without the sligitest difficulty and the Tignish very wharf today, by an American, that the cruiser Houlett was in the habit of getting out of the way whenever a Yankee tisherman hove in nerfece with her fishing wherever she pleased. In 450 ft. C., Democritus asserted the year to be 365 1-4 days long, which is within about eleven minutes of the truth. Another ingenious device for the same purpose was that of the Egyptian astronomers, who set up a wheel parallel to the plane of the equator. When the sunward side of the wheel would be exactly intercepted by the other, and the interval between two such occurrences would measure the year. Owing to the fact that the sun does not cross the celestial equator in the same place cach year, this year which measures the seasons is a few minutes shorter than the exact time of the earth's motion around the sun.—[From 'Good Time and its Ascertainment," by Professor Isaac Sharpless, in Popular Science Monthly, for August.

My wife had an attack of fever and she had Mrs. Sarah J. Wisel to come and try your Remedies, for she said if she sent for she doctor she would be in bed at least three weeks, if not six; the consequences were, she was not in bed three days, but was up at oace. I have been troubled for years by spells with a sourcess and pain in my stomach, so I tried your Regulators. I took three on going to bed. The next day I had no pain or sourcess; the next night I took two more, said have not felt a particle of it sinte. My little boy, three years old had a like that neighbors thought hea. TWENTY YEARS IN USE. FWENTY YEARS IN USE.

67 EAST LAKE ST., CHICAGO, ILL., Sept. 7th, 18c5.

DR. RADWAY & CO. .—I have used your Ready Relief for many years in my family with great effect. For the last twenty years i would have nothing else to expel pain inwardly or from any part of the body outwardly.

I have used it for rheumatic pains and always found great relief when applied to the painful part of the body.

Your Pills are indeed excellent, as you represent them in the papers. I bought a box to-day. Please send me information worth thousands, and oblige, ROBERT U'DONNELL.
